## ADDER Remote Weapon Station (RWS) 30

ADDER RWS 30 is a low-profile and lightweight unmanned turreted weapon station designed to deliver firepower with accuracy. It is a high-performance system that is equipped with today's technology to meet multiple mission requirements.

### Features

#### PLATFORM-AGNOSTIC

Can be integrated on any tracked, wheeled vehicle or marine vessel.

#### ADAPTABLE CONTROLS

Configurable to vehicle-mounted Operator Console or wireless handheld Operator Control Unit.

#### COMMON FCS

Identical workflow and user interface across the ADDER family.

#### PROTECTION

Modular add-on armour solutions.

#### RELIABLE

Rigorously tested for all operational scenarios.

#### SMART DETECTION

Auto detection and target tracking that helps to detect, differentiate and track specific targets.
